### What to expect

**Builders and renovators:** This forum introduces new user guides for working with HVAC designers, HVAC contractors, home designers and window suppliers to ensure comfort in the homes you build and renovate. Take a closer look at innovative solutions through a case study home.

**Designers and contractors:** Discover new guides to use when designing HVAC systems for today's popular housing layouts.

**Building officials:** Learn more about emerging heating and cooling equipment along with air distribution solutions for today's homes and a new user guide to review installations.
