

### NOTICE

This document is provided to make preparing your entry as easy as possible. All entries must be completed on our online platform that will open in May. In the case of a discrepancy between this document and our online platform, the online platform will take precedence.

All companies managed by one main safety contact must enter collectively under one company name. The total number of employees at each company must be added together to determine the grand total. The WCB and COR information from each company must be included. The totals from each company will be averaged by BILD Alberta and used in the entry.

The historical timeline to be used in answering these questions is June 1, 2018 to May 31, 2019. The responses should reflect initiatives during that timeframe and should not be copied from any previous entries.

If the specified number of examples requested is exceeded any additional examples will be deleted. There will not be an opportunity to re-write.

***Provide your 2018 WCB Employer Premium Rate Statement (PDF) for all companies that are part of your entry.***
