

COVID-19 STAY AT HOME/RETURN TO WORK GUIDELINES

This guidance has been prepared to support the safety of all essential individuals accessing our sites while allowing us to continue the vital work of building and maintaining housing for our markets. This guidance is being provided on April 7, 2020 based on [CDC](#) or [Health Canada](#) guidance on discontinuation of isolation of person with COVID-19. This guidance is subject to change. The Site Superintendent will apply and communicate Stay at Home/Return to Work guidelines to all essential individuals accessing our sites.

SYMPTOMS / DIAGNOSIS	STAY AT HOME	RETURN TO WORK
<p align="center">FEVER (Temp >38°C / 100.0°F)</p>	<p align="center">Stay at home</p>	<p>After at least 3 days (72 hours) of no fever without the use of antipyretics (i.e., fever-reducing medications, such as Tylenol®, Motrin®, etc.) AND</p> <p>Other symptoms have significantly improved (i.e. cough, shortness of breath) AND</p> <p>At least 7 days have passed since symptoms first appeared</p> <p>Contact employer/trade partner lead prior to return to work</p>
<p>ONE OR MORE OF THESE SYMPTOMS WITHOUT FEVER:</p> <p>Cough Shortness of breath Sore throat Nasal Congestion/ Runny nose Body Aches</p>	<p align="center">Stay at home</p> <p>If these symptoms get better after 2 days, call your employer/trade partner lead about potentially returning to work.</p> <p>If these symptoms are worsening after two days, OR If you develop a fever, then continue to stay at home, contact medical provider and contact your employer/trade partner lead.</p>	<p>If these symptoms get better after 2 days, call employer/trade partner lead about potentially returning to work.</p> <p>Disinfect your hands before touching items others may touch</p> <p>Do not shake hands with others</p>
<p align="center">Diagnosis of COVID-19</p>	<p align="center">Stay at home, self-isolate, and self-monitor your symptoms</p>	<p>14 days passed since the date of the date of the confirmed COVID-19 diagnostic test and have had no subsequent illness and remain asymptomatic.</p> <p>AND</p> <p>Contact your employer/trade partner lead prior to your return to work.</p>
